

Aadarsh Thakur

Full Stack Developer | Software Developer

Delhi, India | +91 9310574300 | thakuraadarsh1@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building and deploying web applications and backend services using React.js, Node.js, Express.js, PostgreSQL, Firebase, and Supabase. Skilled in REST API development, cloud backend system design, AI service integration, JWT/Firebase authentication, and Role-Based Access Control (RBAC). M.Tech candidate in AI & Data Science at IIT Patna.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Middleware, JWT Authentication, RBAC

Databases: PostgreSQL, Supabase, Firestore, MongoDB

Cloud & Tools: Firebase (Authentication, Cloud Functions), Vercel, Git, GitHub, Postman

AI & ML: AI Service/API Integration, Machine Learning (certified), Python

Core Areas: Full-Stack Development, Backend System Design, API Integration, Database Design, Testing, Debugging, Deployment

PROFESSIONAL EXPERIENCE

Full Stack Developer | Ash-Tech Solutions, Delhi, India

Jan 2026 – Present

- Developed production-grade full-stack applications using React.js, JavaScript, Node.js, and Express.js, translating business requirements into scalable features.
- Designed RESTful APIs with input validation, middleware, structured error handling, and authorization for secure application workflows.
- Implemented JWT and Firebase Authentication with Role-Based Access Control (RBAC) for secure multi-user applications.
- Engineered cloud backends using Firebase Cloud Functions, Supabase, PostgreSQL, and Firestore; optimized database operations, improving performance by approximately 20–30%.
- Contributed across the software development lifecycle: requirement analysis, API integration, testing, debugging, deployment, and maintenance.

Backend Developer Intern | Ash-Tech Solutions, Delhi, India

Jul 2025 – Jan 2026

- Built backend services and REST APIs with Node.js and Express.js, including validation and error handling.
- Developed serverless workflows with Firebase Cloud Functions and integrated Supabase PostgreSQL; designed schemas and optimized queries.
- Tested APIs with Postman and managed source code using Git and GitHub.

PROJECTS

Escrow Business Management System | Full-Stack Web Application | [escrow-bms-6fdeb.web.app](#)

- Built a full-stack platform for client, inventory, billing, invoice, transaction, and ledger management with secure APIs, authentication, and RBAC for multi-user operations.
- Implemented QR-based product scanning and billing to automate invoice generation and reduce manual processing.

Taliwo.com – AI-Powered Career Platform | Firebase Auth, Supabase PostgreSQL, AI Integration | [taliwo.com](#)

- Developed backend APIs for AI-powered resume analysis, LinkedIn profile optimization, and career recommendations by integrating third-party AI services.
- Implemented Firebase Authentication with Supabase PostgreSQL for secure multi-user access and structured data management.

ACHIEVEMENTS & CERTIFICATIONS

- Published two patents (2024): GPS-Based Luggage Security System; Agricultural Management Device. 4th place, ITS Codeathon.
- Certifications: Machine Learning and Python Programming (CutShort); Data Science (Google Launchpad); AI & Machine Learning (AICTE EduSkills).

EDUCATION

Indian Institute of Technology Patna | M.Tech, Artificial Intelligence & Data Science

Jun 2026 – Jun 2028

G.L. Bajaj Group of Institutions, Greater Noida | B.Tech, Computer Science Engineering

2021 – 2025
